

Environmental Management Certificate Program

TOPICS INCLUDE Hazardous Materials Management (RCRA) • Transportation of Hazardous Materials (DOT) Industrial Hygiene, Safety and OSHA Regulations • Clean Air Act & Amendments • Emergency Planning Remediation and Treatment • Water Quality Acts • Environmental Audits and Site Assessment • Remediation

Course Details

The program provides topics relevant in assisting with preparation for professional certification exams, particularly the CHMM. Our EMC Program is approved by the IHMM (Institute of Hazardous Materials Management) as a CHMM (Certified Hazardous Materials Manager) Exam Blueprint Prep Course. The CHMM is a popular exam and credential for anyone within the environmental management field.

The Environmental Management Certificate program is prepared and presented by industry experts, including Michael Thayer, Ph.D., CHMM; Damon Wright, CHMM; Robert Scudder, Ph.D., CIH, CSP, CIT; and Marla Myers, Dangerous Goods Consultant and Training Manager at Viking Packing Specialist

This program offers professional development for varying levels of participants, from established senior level managers to newly appointed compliance officers.
